

IMMUNIZATION GUIDELINES

COMPLETE ALL THREE (3) FORMS

(1) Health History form, (2) the Tuberculosis Questionnaire, and (3) submit copies of your immunization records online in the HealthyPack Portal.

NAME AND BIRTH DATE ON EVERY PAGE

Every. Single. Page. of all documents submitted

U.S. AMERICAN STYLE DATES

Dates should be in the U.S. American MM/DD/YYYY format where possible.

MINIMIZE UPLOADS

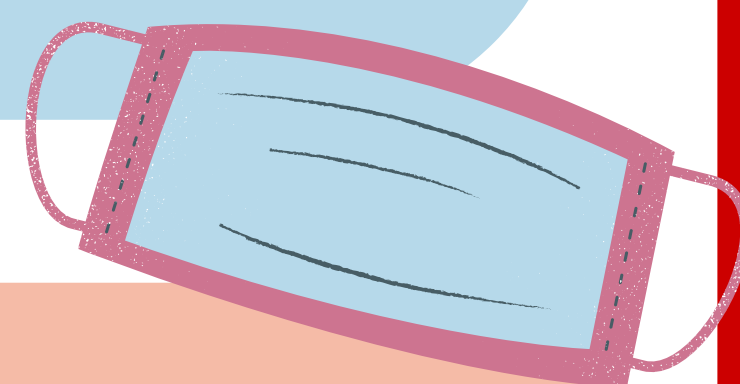

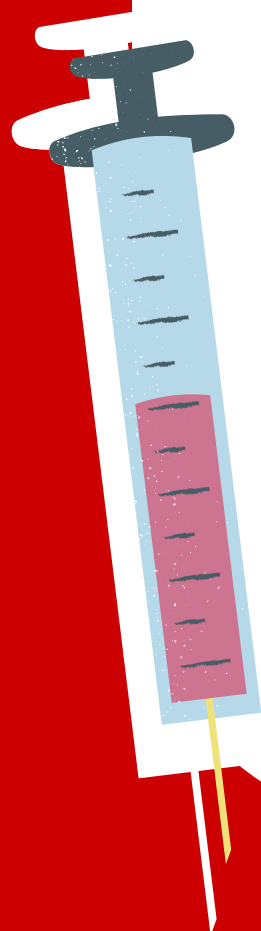

Consolidate all of your vaccine information into one document instead of uploading multiple documents. Do NOT keep uploading the same documents.

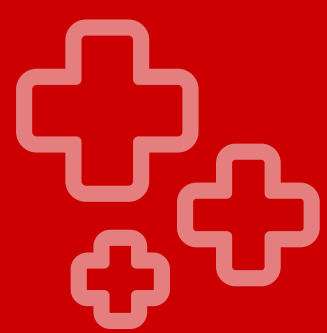

INCLUDE ORIGINAL DOCUMENTS

Make sure you upload your health/baby book/original documents because there are a LOT of transcription errors on the NC State form. Dates on the original documents may be written in the DD/MM/YYYY format.

HEALTHYPACK PORTAL

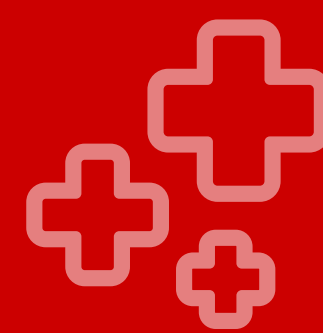

Check the HealthyPack Portal for messaging from the health records team. You will get the fastest response by messaging the immunizations coordinator through the portal.

IMMUNIZATION RECORDS

COMMON ISSUES

MMR (ROUGEOLE / OREILLONS / RUBÉOLE)

Two (2) doses are required ON or AFTER your first birthday/ 1 year of age. **Doses that are administered before the student turned 1 year of age will not count. There are no exceptions.**

TB SCREENING REQUIRED

ALL students must fill out the Tuberculosis (TB) Screening in the HealthyPack Portal. Only students from high-risk countries or recently traveled there are required to do TB testing. NC State **does not accept** PPD/Mantoux/skin tests from outside of the US. We recommend taking the test at NC State Campus Health **as soon as you arrive.**

DTP/DTAP/TDAP (TETANUS, DIPHTHERIA, PERTUSSIS)

- 1) Pertussis = Coqueluche and NOT Poliomyélite. The vaccine is known as Diphtérie / Tétanos / Coqueluche (DTCaP / dTcaP) in France.
 - 2) All students must show proof of a Tdap booster after the age of 12 AND within the last 10 years.
- You will need another shot if your booster was 10+ years ago.**

HEPATITIS B

Required if born after July 1, 1994. Either a three (3) dose series or two (2) doses of HEPLISAV-B series. Students could receive the first 2 doses at home (at least a month apart). The 3rd dose must be **at least 2 months after the 2nd dose and at least 4 months after the 1st dose.**

MENINGOCOCCAL CONJUGATE VACCINE (MENACWY)

Required if born on or after Jan. 1, 2003. Common names of Meningococcal ACWY vaccines: Menactra, Menveo, Menomune, MenQuadFi, Penbraya (ACWY + B), Nimenrix (France), Menpovax (Europe).

Meningococcal C only vaccines (ex. Neisvac) do not count.

If you don't complete your health records requirements by the due date, you will **lose access to NC State facilities and services** and must **pay a \$150 reinstatement fee.**

GTI and SKEMA staff are NOT healthcare professionals. **All questions should go to Campus Health.** We cannot contact Campus Health for you.
